CERTIFICATIONS

- CCNA Routing and Switching (2017)
- Typescript Fundamentals (Feb.28.2019)

RELEVANT EXPERIENCE

ACCENTURE

SOFTWARE ENGINEER NEW ASSOCIATE

16 JANUARY 2019 – 30 NOVEMBER 2019(CONTRACT)

- He was responsible for developing the front-end and back-end of Team Portal using (Angular, Ionic, NestJS and Firebase)
- Developed and deployed a centralized server connected to the web and mobile applications.
- Created NestJS and Firebase API service calls and further documented the process for future projects or usage.
- He gained experience in testing web and mobile applications using Selenium and Microsoft UFT
- He has participated and is aware of all sorts of agile ceremonies (user story grooming, sprint planning, sprint retrospective)
- UI/UX Design for Web and Mobile applications

EXPERIENCE PRIOR TO ACCENTURE

- He volunteered as a read leader at Mine Is Education organization, he worked with learners in several cultural activities including poetry, debates, drama, singing, spelling games etc. His experience working with the organization improved his skills on the exchange of knowledge and communications.

SUMMARY

- Intermediate Full-stack developer with a demonstrated history of working in the information technology and services industry. Skilled in Angular 2+, Ionic framework, NestJS, express.js, Firebase(Client & Admin), Node.JS, Google Cloud Platform, Git/GitHub, Typescript, Java, MySQL. Strong engineering professional with a Diploma focused in Information and communications technology specializing in application development from Sol Plaatje University.
- During his time at Accenture he has exceeded expectations and established himself as a go-to person the team depends on. As a self-starter, He quickly established himself as subject matter expert and achieved this with no supervisor input and guidance. He is effectively guiding and supporting the development. Obakeng leads the development shaping Team portal development, defining reusable libraries and functionalities thus also defining scope of work and tasks for development team.
